

PRODUCT DATA SHEET

EVERBUILD® X3 Paint & Varnish Stripper

NON-METHYLENE CHLORIDE PAINT STRIPPER

PRODUCT DESCRIPTION

EVERBUILD® X3 Paint & Varnish Stripper is an effective non-methylene chloride paint stripper ideal for use by inexperienced DIY'ers as well as professional users. The non-caustic formulation is simple and easy to use both indoors and out.

USES

- For removing most paints and varnishes.

PRODUCT INFORMATION

Packaging	500ml & 1Ltr bottles
Shelf Life	24 months from date of manufacture.
Storage Conditions	Store in cool (5°C - 25°C) dry conditions in original containers.

APPLICATION INSTRUCTIONS

APPLICATION

Shake container well before use.
Wear protective gloves. Pour a quantity of EVERBUILD® X3 Paint & Varnish Stripper into a suitable container. For each application apply a generous even coat (do not brush out too much) onto the surface to be stripped with a suitable brush. Leave for approximately 30 minutes and then apply a second coat. For areas where there are less than 5 layers of paint or varnish, a second coat may not always be necessary. Allow the stripper to work for at least one hour, then check to see how far it has penetrated: depending upon the paint type the stripper will remove between 3-5 coats per dual coat application after approximately one hour.
Once the stripper has penetrated to the substrate or the initial 3-5 layers of paint, scrape off, leaving sur-

CHARACTERISTICS / ADVANTAGES

- Works on all common types of paint and varnish.
- Removes up to 3 layers of paint per application.
- Non-flammable.
- Non-drip formula.
- Methylene Chloride free.

face as clean as possible. For multiple layers repeat application until all paint has been removed, then rub down stripped area using a scrubbing brush or stainless steel pad and water. Rinse with water and allow to dry.

LIMITATIONS

- Use only as directed.
- Store in original container.
- Do not allow to come into contact with textiles, plastics or floorcoverings.
- Do not use externally when rain is imminent.
- Do not apply in direct sunlight.
- Always test a small inconspicuous area prior to full application.
- It is the user's responsibility to determine suitability for use. If in doubt please contact Technical Services for advice.

VALUE BASE

All technical data stated in this Data Sheet are based on laboratory tests. Actual measured data may vary due to circumstances beyond our control.

LOCAL RESTRICTIONS

Note that as a result of specific local regulations the declared data and recommended uses for this product may vary from country to country. Consult the local Product Data Sheet for the exact product data and uses.

ECOLOGY, HEALTH AND SAFETY

For information and advice on the safe handling, storage and disposal of chemical products, users shall refer to the most recent Safety Data Sheet (SDS) containing physical, ecological, toxicological and other safety-related data.

LEGAL NOTES

The information, and, in particular, the recommendations relating to the application and end-use of Sika products, are given in good faith based on Sika's current knowledge and experience of the products when properly stored, handled and applied under normal conditions in accordance with Sika's recommendations. In practice, the differences in materials, substrates and actual site conditions are such that no warranty in respect of merchantability or of fitness for a particular purpose, nor any liability arising out of any legal relationship whatsoever, can be inferred either from this information, or from any written recommendations, or from any other advice offered. The user of the product must test the product's suitability for the intended application and purpose. Sika reserves the right to change the properties of its products. The proprietary rights of third parties must be observed. All orders are accepted subject to our current terms of sale and delivery. Users must always refer to the most recent issue of the local Product Data Sheet for the product concerned, copies of which will be supplied on request.
